THE WEEK

Seven days on one page. Composed, not remembered.

Audits and their findings, actions raised and closed, downtime and where it went, every board's attainment, and what keeps happening - built from what was captured, ready for the Friday meeting.

THE NUMBERS
Audits, actions, minutes down

THE REPEATS
What came back twice

THE BOARDS
Every shift's attainment

ONE TAP
Built from the week's captures

NOTHING RETYPED
Every number on the page comes from something captured during the week.

THE REPEATS LEAD
A problem that came back twice outranks a problem that was loud once.

HONEST ZEROS
A quiet week prints as a quiet week. The page never decorates.

THE MEETING
Print it or send it - it carries the site's name and the date range.

The Friday meeting should read the week, not reconstruct it.
